ELECTRONIC LOCK

MODEL K7

Fingerprint tempered glass surface, scientific streamline design

VOICE NAVIGATION

ANTI-TASTE FUNCTION

INTEGRATED DOORBELL

MULTIPLE CORE TECHNOLOGIES

Security technology is more comprehensive.

- Multiple ways to unlock
- Voice navigation
- High-sensitive fingerprint
- All-time-open mode
- Anti-pry alarm
- NFC type-P emergency port
- Virtual password
- One-time password

USER-FRIENDLY DESIGN

Integrated doorbell, streamlined design and exquisite surface with structure patent, perfectly matches the modern life.

MULTIPLE UNLOCKING METHODS

Smart life, upgrade your privacy and safety, and make your home safe and convenient.

ANTI-COPY ENCRYPTED CARD

Intelligent encryption IC card recognition, easy to manage, high security against copying.

- Encryption protection
- Non-copy certification
- Card unit cost

HIGH SENSITIVE SEMI-CONDUCTOR FINGERPRINT

AI self-learning algorithm, anti-copy, anti-theft, fast identification within 0.5 seconds.

- <0.55 Fingerprint unlock speed
- <0.01% False reject rate
- <0.0001% False acceptance rate
- 100 Pieces Fingerprint capacity

POWERFUL INNER CORE, SMART CPU

Powerful and stable operating system, high-performance chip, more accurate running speed algorithm.

- 0.5s UNLOCK TIME — Self-optimization algorithm
- 100ms RESPONSE TIME — Interphase Security and IOT connectivity

304C STAINLESS STEEL LOCK BODY

Durable anti-rusty anti-corrosion.

POWER EFFICIENCY

Convenient, environmentally, cost saving.

- Smart power saving
- 10000 times of operation

Easy to install and replace the battery

LOW BATTERY REAL-TIME REMINDER

With USB emergency port for charging to unlock. Low battery reminder once with low battery reminder.

PRODUCT PARAMETER

Material: Aluminum Alloy	Color: Black
Password Length: 6 digits	Suitable Mortise: 6860
Alarming Power: 4.8V	Power Supply: 4.5V AA Batteries
Battery Life: 10000 times of operation	Door Thickness: 40-120mm
Static current: <40uA	Dynamic current: <300mA
Data Capacity: 100pcs Fingerprint+100pcs Card+20pcs Password	
Door Type: Wood door, Steel door, Stainless Steel door, Brass door	

PRODUCT DETAILS

INSIDE PRIVACY KNOB

When turn on this knob,the lock can't be unlocked from outside.

SEMI-CONDUCTOR FINGERPRINT

Fingerprint sensor designed on the handle, hold and unlock in one step.

USB EMERGENCY PORT FOR EMERGENCY UNLOCKING

When the battery is exhausted, used power bank to plug in the emergency power port to gain power

OPEN WITH KEY

Mechanical keys for backup.

ALUMINUM ALLOY MATERIAL

Top front and rear panels are all integrated alloy frames, which are durable.
