CURTAIN SENSOR

LS-PD909 SENSOR PERDE VERTIKAL

Description

- Anti tamper switch
- Auto Temperature Compensation
- LED On & Off Optional
- Alarm Duration Adjustable
- Detecting Range Optional (Far, Medium, Near)
- Adopted SMT, high EMI/RFI immunity

Working voltage: 9V 6F22 battery

Operating current: less than or equal to 20mA

Static current: less than or equal to 10uA

Emission distance: no less than 100m (open distance)

Working temperature: -10 C to 50 °C

Installation: wall hanging

Installation height: 2.2m

Detection Angle: 110° 15 (curtain type)

Detection range: 12m (curtain type 8m)

Encoding: 1527/2262

[Transmission frequency: 315MHz/433MHz

Size: 109 *60 * 42 mm
