Concealed Type Normal Close Magnetic Contact Door Sensor (LS-PB-65)

Product Specifications:

- **Magnet**: Rare Earth Magnet
- **Color Options**: White
- **Wire Range**: 20~24 AWG
- **Reed Form**: N/C (Normally Close)
- **Closed Gap**: (22 mm)
- **Departure Gap**: (24 mm)
- **Maximum Initial Contact Resistance**: 0.150 Ohm
- **Maximum Contact Rating**: 7.5 Watts
- **Certification**: CE, UL

Important Note:

- The gap will double for installations not involving steel.
- These magnetic contact switches should be installed such that a door or other movable opening cannot be opened more than 2 inches (51 mm) without triggering an alarm.
- Installations exceeding 2 inches are not permissible per UL681 - the Standard for Installation and Classification of Burglar and Holdup
- Alarms.
