ZL Brackets for 500KG LOCK 5

ZL Mounting Bracket Set for Electromagnetic Lock

ZL Brackets for 500KG LOCK 5 is a metal mounting bracket set intended for installation of a 500 kg electromagnetic lock. The ZL configuration provides mounting support where the door or frame requires an offset or alternative lock arrangement.

Key Features

- ZL-type mounting bracket set
- Designed for 500 kg electromagnetic locks
- Metal construction
- Slotted mounting holes for installation adjustment
- Suitable for access control door installations
- Supports alternative lock positioning

Specifications

Item	Description
Product Name	ZL Brackets for 500KG LOCK 5
Product Type	ZL mounting bracket set
Lock Type	Electromagnetic lock
Lock Class	500 kg
Construction	Metal
Bracket Configuration	ZL type
Mounting	Door / frame mounting
Adjustment	Slotted mounting holes
Application	Access control door installations

Application

Used as a mounting accessory for compatible 500 kg electromagnetic locks in access control systems. The ZL bracket arrangement helps adapt the lock installation to door and frame configurations where direct mounting is not suitable.
